## GEKA® plus multi-sprayer 3S

Advantages / benefits: .....High quality robust multi-sprayer with 3 different spray patterns  
**Robust and durable** thanks to **high-quality metal components inside and outside** and GEKA® plus device plug made of chrome-plated brass  
**Permanent locking** with **one-hand operation** for convenient and permanent watering  
**Individual adjustment of the water flow rate using a regulating valve**  
Ideal for **left- and right-handed** users as it can be operated from both sides  
**Simple and intuitive setting** of the spray patterns thanks to the position indicator and pictograms. Confirmation of the set position by click-in function  
**Fatigue-free** working thanks to **ergonomic** design  
**Pleasant feel and non-slip** thanks to **soft components** on the lever and handle  
**Easy cleaning** of the circuit board and valve through **Clean + Repair\***:  
Tool-free access to the circuit board and valve set for maintenance and cleaning

Application: .....Shower: Ideal for watering planting areas and planters  
Full jet: Ideal for filling containers or for cleaning tasks  
Flat jet: the horizontal flat jet is ideal for watering hedges, but also for cleaning tasks

Material: .....Metal components: Shower head and body made of aluminium, plate made of stainless steel, GEKA® plus device plug and valve insert made from chrome-plated brass  
Plastic components: Other components, lever and handle additionally overmoulded with TPE (soft grip)

Packaging	On card	EAN-flag
